

VETICA

// electronic music producer & performing artist //

<< based out of the northeast united states >>

vetica harnesses the beauty, intensity, and emotive qualities of electronic music.

vetica is the musical moniker of Matthew Binginot, a digital media artist and performing musician who is active as a photographer, filmmaker, and synthesizer player in the live electronic band Night Protocol.

As vetica, his production styles oscillate between house, techno, electro, and industrial sounds that encapsulate both the light and the dark. Various releases shift between uplifting melodic elements, dance floor-ready grooves, and pulsating synthesizer tones to create visceral musical experiences.

vetica performs live sets that fuse dj'ing, visuals, and live instrumentation with a focus on musical expression. He has played live sets throughout the northeast and has shared the stage with acts such as Lane 8, Jai Wolf, and Enamour.

Each vetica production aims to provide a perspective, an atmosphere, and an emotion captured in sound, sight, and sensation.
